

Create HPL.

Coastal Colour Range

With inspiration taken from Aotearoa's picturesque coastlines, Create HPL – the Coastal Colour Range offers some of New Zealand's most loved colours.

DESCRIPTION

Create HPL offers Latvian Birch plywood that is beautifully finished on both sides with a smooth matt anti-fingerprint laminate. With a great range of natural colors to choose from, it is the perfect addition to enhance your project.

KEY FEATURES

- Anti-fingerprint, scratch-resistant matt laminate
- Suitable for both horizontal and vertical surfaces (Not recommended for kitchen benchtops)
- Available in 12 different colours
- Latvian Birch substrate

DIMENSIONS

All colours are available in 2440 x 1220mm, 18mm/13ply
Albatross and Piha are also available in 24mm/17ply.

SCOPE OF USE

High-end joinery and cabinetry.

LIMITATIONS ON USE

For interior use only.

PERFORMANCE

Environment Protection Standard:
ISO 14001:2005

Quality Management Standard:
ISO 9001:2009

FSC Certified

PEFC Certified.

TECHNICAL SPECIFICATIONS

Standard – EN 636-2

Finish – High Pressure Laminate 0.6mm

Wood Raw Material – European Birch

Density – average 700kg/m³

Class – Hardwood, non-durable

Glue Bond – EN 314-3: Class 2 Exterior

Riga ECOlogical: Bio-based and renewable lignin glue system for safer living and working environments.

FINISHING

For pre-finished plywood we advise to sand and aris all end grain (edges) before coating to help prevent moisture ingress and increase longevity.

HANDLING AND STORAGE

Plywood is a natural product that can be affected by changes in ambient weather conditions, causing previously flat sheets to bow or twist.

All precautions are taken to minimise this effect, however once the plywood has left our warehouse we cannot guarantee sheets to remain flat.

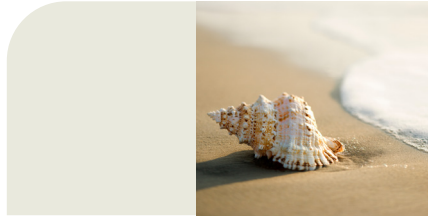

Avoid leaning sheets against walls. Store sheets where construction activity will not damage sheets. Keep the surface free of contaminants such as dust, oil and adhesives that will affect the surface finishes.

Storage areas should be protected from sun, rain and wind to minimise changes in humidity. Treat sheets as a finished product and avoid dragging sheets across other surfaces.
