

Eurolite BB/BB

Light-weight plywood manufactured from European Poplar logs for applications in the construction of motor-homes and caravans. The specific properties make it ideal for applications in the Recreational Vehicle and Transport industry where weight saving is a priority.

DIMENSIONS

2500 x 1220mm – 4mm, 6mm, 10mm, 12mm, 15mm, 18mm, 25mm, 30mm.

SCOPE OF USE

Joinery, furniture components, Crates, flight cases.

LIMITATIONS ON USE

For interior use only.

HANDLING AND STORAGE

Plywood is a natural product that can be affected by changes in weather, causing previously flat sheets to bow or twist. All precautions are taken to minimise this effect, however once the plywood has left our warehouse we cannot guarantee sheets to remain flat. Avoid leaning sheets against walls. Store where construction traffic and activity will not damage sheets. Keep the surface free of contaminants such as dust, oil and adhesives.

The storage area should be protected from sun, rain and wind to minimise rapid changes in temperature and humidity. Treat sheets as a finished product and avoid dragging sheets across other surfaces.

PERFORMANCE

Environment Protection Standard:
ISO 14001:2004

Quality Management Standard:
ISO 9001:2008

ULEF: No harmful emissions

FSC Certified

PEFC Certified.

TECHNICAL SPECIFICATIONS

Standard – EN 635

Wood Raw Material – Black Italian Poplar

Density – average 420kg/m³

Class – Softwood, non-durable

Glue Bond – EN 314-2:
Class 2 Covered Exterior

Glue Formaldehyde Emissions – ULEF:
Ultra-Low Emitting Formaldehyde.
